

**A fixed annuity offering
index-linked earnings and
downside protection**

BUILDER BONUS INDEX[®]

Featuring a 6% bonus on first-year premiums

When creating a strategy for your financial future, you have two choices generally: the growth potential of stocks or the lower returns of more conservative alternatives.

Ideally, you want your financial vehicle to offer the upside potential of stocks, with none of the downside risk.

BUILDER BONUS INDEX from EquiTrust Life Insurance Company® gives you benefits when markets are rising, and security when they're fluctuating. And, there's the added benefit of tax advantages offered by a fixed annuity.

Plus, EquiTrust Life will immediately credit your contract an extra 6 percent on any premiums paid during the first contract year.

BUILDER BONUS INDEX enables you to:

- Lock in S&P 500®¹ gains
- Completely avoid market losses – guaranteed²
- Guaranteed return of premiums

**When the Market is Up ... You're Up!
When it's Down ... You're Not!**

The **BUILDER BONUS INDEX** annuity never exposes your principal to market risk. You share only in index gains ... not the losses. And you benefit from tax-deferred earnings, withdrawal privileges,³ built-in guarantees and a 6 percent premium bonus on first-year premiums – all without investing directly in the stock market.

You may choose among several accounts. A Fixed Rate Account earns a traditional interest rate, and a variety of Index Accounts earn credits based on changes in the S&P 500®.

On appropriate contract anniversaries, "index credits" are determined on the Index Accounts and applied to your contract's current accumulation value. Index credits are based on S&P 500® performance. If the index continues steady growth, your accumulation value grows. If the S&P 500® declines, your accumulation value is simply unchanged from the preceding period's accumulation value.

At the end of the surrender charge period, you have access to your contract's full accumulation value – including market-index gains – with no surrender charges. However, by leaving your money in **BUILDER BONUS INDEX** beyond the surrender charge period, you continue to earn index credits on a tax-deferred basis.

The Impact of Market Fluctuation

This hypothetical illustration shows the increasing accumulation values during years where the index value has positive increases, and unchanged accumulation values when the index value declines. The illustration assumes 100% of the initial premium is allocated to the annual Point-to-Point account, including the 6% premium bonus.

This hypothetical illustration should not be considered representative of current or future performance. The example assumes no surrender or withdrawals. Current interest rates and index cap rates may change each indexing period. All rates used in this illustration are hypothetical and subject to change. Ask your agent for current rates.

You Control Your Money ... Going In *and* Coming Out

FLEXIBLE PREMIUMS

After making your initial premium payment, you may add subsequent premiums at any time (not to exceed \$250,000 in any contract year after year one). Your entire premium amount and 6 percent premium bonus (during the first year) are credited to the accumulation value. There are no fees, loads or sales charges. Additional premium payments plus bonus (if applicable) are directed to the Fixed Rate Account until the next contract anniversary, at which time they can be reallocated. If you would like all initial premiums to be allocated similarly, you may authorize the Company to wait to issue the contract until all specified premiums are received.

ACCOUNT TRANSFERS

On each contract anniversary, you have the ability to transfer money among the various accounts offered in your contract. Transfers out of the Two-Year Averaging Account are allowed at the end of each two-year period only. After a transfer, the remaining balance in a given option, if any, must be at least \$2,000.

PREMIUM ALLOCATIONS

You may request a change to your current premium allocations at any time; any reallocation request will take effect on the following contract anniversary and will apply only to any additional contributions during the current contract year.

FREE WITHDRAWALS

You may withdraw up to 10 percent of the accumulation value each year, after the first contract year, without paying any charges.³

LUMP-SUM PAYMENT OPTION

Your contract's cash surrender value is available to you as a lump sum at any time. Surrender charges are in effect during the first nine contract years, are a percentage of the accumulation value, and decline annually: 9.0, 8.0, 7.0, 6.5, 5.5, 4.5, 3.5, 2.5 and 1.5 percent. In addition, early surrenders or withdrawals over 10 percent may be subject to a Market Value Adjustment⁴ (MVA). After the ninth contract year, your cash surrender value will equal the full accumulation value.

ANNUITIZATION OPTIONS

Several annuitization options are available after the first year, including payment for life or payment for a certain period of time. You determine the schedule that best fits your financial circumstances – a period as short as 10 years, or for as long as the annuitant is alive. Your agent can help you determine the most appropriate payment option, or discuss a specific payment schedule you may have in mind.

EquiTrust Life Is a Name You Can Trust

When you choose EquiTrust as a financial partner, you can rest assured your annuity contract is backed by conservative investment strategies, anchored by a disciplined and diversified management style. EquiTrust is supported by a history of success, experience and strength; we're a Guggenheim Partners company – a global financial services firm with more than \$170 billion under management.

Helping Your Money Work Harder for You

BUILDER BONUS INDEX allows you to allocate your premiums among the following crediting accounts.

INDEX-BASED ACCOUNTS

- **1-Year Point-to-Point Cap Index Account** – If the index value at the end of the contract year is greater than the index value at the beginning of the contract year, you receive index credits based on that increase, subject to a specified cap. The cap is reset annually.
- **1-Year Average Cap Index Account** – If the average of the **daily** index values for the contract year is greater than the index value at the beginning of the contract year, you receive index credits based on that increase, subject to a specified cap. The cap is reset annually.
- **1-Year Average Participation Index Account** – If the average of the **monthly** index values for the contract year is greater than the index value at the beginning of the contract year, you receive index credits based on that increase multiplied by the Participation Rate. The Participation Rate is reset annually.
- **1-Year Monthly Cap Index Account** – Index crediting is based on the cumulative sum of capped monthly S&P 500[®] changes over a one-year period. Each of the monthly gains is subject to a cap, but there is no floor on monthly declines. Index credits are calculated on an annual basis and will never be less than zero. The Monthly Cap is reset annually.
- **2-Year Average Cap Index Account** – If the average of the monthly index values over two contract years is greater than the index value at the beginning of the index period, you receive index credits based on that increase up to a specified cap. The cap is reset every two years.

FIXED RATE ACCOUNT

- **1-Year Interest Account** – A one-year fixed interest rate is set when your contract is issued. The rate is set annually, and provides a guaranteed rate that you may prefer for a portion of your assets. For any subsequent premiums received, interest is credited based on the fixed rate declared at the beginning of that contract year.

Other Features

PREMIUM BONUS

The 6 percent premium bonus is added to your first-year premium payments immediately, and is a permanent part of your accumulation value. You then earn interest and “index credits” on your premium *and* 6 percent bonus. If you surrender your contract, a surrender charge and MVA⁴ may be applied to the full accumulation value, but you don’t lose your bonus. In event of death of the annuity owner, 100 percent of your premium bonus is included in the death benefit.

THE VALUE OF TAX DEFERRAL

Currently, all interest income earned on an annuity accumulates on a tax-deferred basis. No income taxes are payable until you receive a payment from your contract. If you are under age 59½ at the time of withdrawal, an additional 10 percent IRS penalty may be imposed. Tax deferral is currently available only to individuals and joint owners, not to corporations or other non-individuals.⁵

MINIMUM GUARANTEED CONTRACT VALUE

You are guaranteed to receive **no less** than 87.5 percent of your premiums – less any partial withdrawals – accumulated at the minimum guaranteed contract rate. This rate is set when the contract is issued and does not change for the life of the contract. Ask your agent for the minimum guaranteed rate.

EquiTrust Life Insurance Company

² The guarantees expressed in this brochure are based on the claims paying ability of EquiTrust Life Insurance Company.

³ Surrender of the contract may be subject to surrender charges or Market Value Adjustment. Withdrawals before age 59½ may result in a 10 percent IRS penalty tax. Withdrawals do not participate in index growth. In the event of a full surrender, charges will apply to any penalty-free amounts taken during the same contract year.

⁴ Market Value Adjustment may not apply in all states.

⁵ Neither the company nor its agents give tax, accounting or legal advice. Please consult your professional adviser in these areas.

Contract issued on Contract Form Series ET-STS-2000(11-11) with riders ET-ROP(03-08) and 430-NHW(08-03) in CT, DE, NV, TX. Contract issued on Contract Form Series ICC11-ET-STS-2000(11-11) with riders 430-NHW(08-03) and ICC11-ET-ROP(11-11) in MN, OR, UT, WA, and other states as made available in the future.

RETURN OF PREMIUM RIDER

As an additional guarantee, in no event will you receive less than your premiums – less any partial withdrawals – in the event of surrender. The Return of Premium Rider is included at no additional cost.

NURSING HOME WAIVER RIDER

For additional peace of mind, your contract includes a Nursing Home Waiver Rider at no extra cost. If you are confined to a nursing home or hospital for 90 days or more, your contract accumulation value will be available without surrender charges or MVA⁴ beginning in the second contract year and during your confinement.

BENEFITS UPON DEATH OF OWNER

If the owner of the annuity dies, the full accumulation value is paid to the beneficiary, without surrender charges or MVA.⁴

FREE-LOOK PERIOD

After your **BUILDER BONUS INDEX** contract is issued, you have a specified number of days to review it; see your contract for complete details. If you are not completely satisfied with the terms, you may return the contract and receive 100 percent of your premiums paid, minus any prior withdrawals.

Ask Your Agent

Ask your agent about the variety of options **BUILDER BONUS INDEX** offers for the stages of your life, or refer to your contract.

This is a summary only. The **BUILDER BONUS INDEX** annuity may not be available in all states. In those states where it is available, certain provisions may vary or may not be available. Prior to purchasing this contract, contact your agent or the company for complete contract provisions and details.

This brochure briefly highlights EquiTrust Life Insurance Company’s Builder Bonus Index annuity contract and its benefits. For costs and complete details of coverage, including any exclusions, reductions or limitations, and the terms under which the contract may be continued in force, contact your EquiTrust Life agent.

IRAs/qualified plans are already tax deferred; consider other annuity features.
