

**A fixed annuity offering  
index-linked performance  
and downside protection**

## **MARKETPOWER BONUS INDEX<sup>®</sup>**

Featuring a 10% bonus on first-year premiums

When creating a strategy for your financial future, you generally face a tradeoff between risk and reward.

A fixed index annuity offers protection against downside risk, and the opportunity to participate in the upside of indices.

**MARKETPOWER BONUS INDEX** from EquiTrust Life Insurance Company® gives you benefits when markets are rising, and protection when they're fluctuating. Plus, there's the added benefit of tax advantages offered by a fixed annuity.

And the bonus isn't just in the name. EquiTrust will immediately credit your contract an extra 10 percent on any premiums paid during the first contract year.

**MARKETPOWER BONUS INDEX enables you to:**

- Lock in S&P 500<sup>®1</sup> gains
- Completely avoid market losses – guaranteed<sup>2</sup>

## When the Market is Up ... You're Up! When it's Down ... You're Not!

The **MARKETPOWER BONUS INDEX** annuity never exposes your principal to market risk. You share only in index gains ... not the losses. And you benefit from tax-deferred earnings, withdrawal privileges,<sup>3</sup> built-in guarantees and 10% premium bonus – all without investing directly in the stock market.

You may choose among several accounts. The 1-Year Interest Account earns a traditional interest rate, and a variety of Index Accounts that earn credits based on changes in the S&P 500<sup>®</sup>.

On appropriate contract anniversaries, "index credits" are determined on the Index Accounts and applied to your contract's current accumulation value. Index credits are based on S&P 500<sup>®</sup> performance. If the index continues steady growth, your accumulation value grows. If the S&P 500<sup>®</sup> declines, your accumulation value is simply unchanged from the preceding period's accumulation value.

At the end of the surrender charge period, you have access to your contract's full accumulation value – including market-index gains – with no surrender charges. However, by leaving your money in **MARKETPOWER BONUS INDEX** beyond the surrender charge period, you continue to earn interest and index credits on a tax-deferred basis.

## The Impact of Market Fluctuation

This hypothetical illustration shows the increasing accumulation values during years where the index value has positive increases, and unchanged accumulation values when the index value declines. The illustration assumes 100% of the initial premium is allocated to the 1-Year Point-to-Point Cap Index Account, including the 10% premium bonus.

This hypothetical illustration should not be considered representative of current or future performance. The example assumes no surrender or withdrawals. Current interest rates and index cap rates may change each indexing period. All rates used in this illustration are hypothetical and subject to change. Ask your agent for current rates.

## You Control Your Money ... Going In *and* Coming Out

### FLEXIBLE PREMIUMS

After making your initial premium payment, you may add subsequent premiums of \$2,000 or more during the first contract year. Your entire premium amount and 10 percent premium bonus are credited to the accumulation value. There are no fees, loads or sales charges. Additional premium payments during the first year are directed to the 1-Year Interest Account until the first contract anniversary, at which time they can be reallocated. If you would like all first year premiums to be allocated similarly, you may authorize the Company to wait to issue the contract until all specified premiums are received. You may allocate your premiums among the following crediting accounts.

### FIXED RATE ACCOUNT

- **1-Year Interest Account** – A one-year fixed interest rate is set when your contract is issued. The rate is set annually, and provides a guaranteed rate that you may prefer for a portion of your assets. For any subsequent premiums received during the first contract year, interest is credited based on the fixed rate declared at the beginning of the contract year.

### INDEX-BASED ACCOUNTS

- **1-Year Point-to-Point Cap Index Account** – If the index value at the end of the contract year is greater than the index value at the beginning of the contract year, you receive index credits based on that increase, subject to a specified cap. The cap is reset annually.
- **1-Year Average Cap Index Account** – If the average of the **daily** index values for the contract year is greater than the index value at the beginning of the contract year, you receive index credits based on that increase, subject to a specified cap. The cap is reset annually.
- **1-Year Average Participation Index Account** – If the average of the **monthly** index values for the contract year is greater than the index value at the beginning of the contract year, you receive index credits based on that increase multiplied by the participation rate. The participation rate is reset annually.
- **1-Year Monthly Cap Index Account** – Index crediting for this account is based on the cumulative sum of capped monthly S&P 500® changes over a one-year period. Each of the monthly gains is subject to a cap, but there is no floor on monthly declines. Index credits are calculated on an annual basis and will never be less than zero. The Monthly Cap is reset annually.
- **2-Year Average Cap Index Account** – If the average of the monthly index values over two contract years is greater than the index value at the beginning of the index period, you receive index credits based on that increase up to a specified cap. The cap is reset every two years.

## EquiTrust Is a Name You Can Trust

When you choose EquiTrust as a financial partner, you can rest assured your annuity contract is backed by conservative investment strategies, anchored by a disciplined and diversified management style. EquiTrust is supported by a history of success, experience and strength. Guggenheim Partners – with more than \$260 billion in assets under management – is involved in the management of the EquiTrust investment portfolio. Magic Johnson Enterprises – a diversified consortium of business entities and partnerships – owns a controlling interest in EquiTrust.

### ACCOUNT TRANSFERS

On each contract anniversary, you have the ability to transfer money among the various accounts offered in your contract. Transfers out of the 2-Year Average Cap Account are allowed at the end of each two-year period only.

### FREE WITHDRAWALS

You may withdraw up to 10 percent of the accumulation value each year, after the first contract year, without paying any charges.<sup>3</sup>

### LUMP-SUM PAYMENT OPTION

Your contract's cash surrender value is available to you as a lump sum at any time. Surrender charges are in effect during the first 14 contract years, are a percentage of the accumulation value, and decline annually: 20, 20, 19, 19, 18, 17, 16, 14, 12, 10, 8, 6, 4, and 2 percent<sup>4</sup>. In addition, early surrenders or withdrawals over 10 percent may be subject to a Market Value Adjustment<sup>5</sup> (MVA). After the 14th contract year<sup>4</sup>, your cash surrender value will equal the full accumulation value. Ask your agent for more details on the MVA, or refer to your contract.

### ANNUITIZATION OPTIONS

Several annuitization payment options are available, including payment for life, payment of a designated amount or payment for a certain period of time. You determine the schedule that best fits your financial circumstances – a period as short as 10 years, or for as long as the annuitant is alive. Your agent can help you determine the most appropriate payment option, or discuss a specific payment schedule you may have in mind.

## Other Features

### PREMIUM BONUS

The 10 percent premium bonus is added to your premium payments immediately, and is a permanent part of your accumulation value. You then earn interest and “index credits” on your premium *and* 10 percent bonus. If you surrender your contract, a surrender charge and MVA<sup>5</sup> may be applied to the full accumulation value, but you don’t lose your bonus. In event of death of the annuity owner, 100 percent of your premium bonus is included in the death benefit.

### THE VALUE OF TAX DEFERRAL

Currently, all interest income earned on an annuity accumulates on a tax-deferred basis. No income taxes are payable until you receive a payment from your contract. If you are under age 59½ at the time of withdrawal, an additional 10 percent IRS penalty may be imposed. Tax deferral is currently available only to individuals and joint owners, not to corporations or other non-individuals.<sup>6</sup>

### MINIMUM GUARANTEED CONTRACT VALUE

You are guaranteed to receive **no less** than 87.5 percent of your premiums – less any partial withdrawals – accumulated at the minimum guaranteed contract rate. This rate is set when the contract is issued and does not change for the life of the contract. Ask your agent for the minimum guaranteed rate.

<sup>3</sup>Surrender of the contract may be subject to surrender charges or market value adjustment. Withdrawals before age 59½ may result in a 10 percent IRS penalty tax. Withdrawals do not participate in index growth. In the event of a full surrender, charges will apply to any penalty-free amounts taken during the same contract year.

<sup>4</sup>The surrender charge period and surrender charges may vary by state. Alaska, Ohio 10-year schedule: 17, 15, 14, 12, 10, 9, 7, 4, 3, 1 percent. Illinois 10-year schedule: 17, 16, 15, 15, 14, 13, 12, 11, 10, 9.5 percent.

<sup>5</sup>Market Value Adjustment may not apply in all states.

### NURSING HOME WAIVER RIDER

For additional peace of mind, your contract includes a Nursing Home Waiver Rider<sup>7</sup> at no extra cost. If you are confined to a nursing home or hospital for 90 days or more, your contract accumulation value will be available without surrender charges or MVA<sup>5</sup> beginning in the second contract year and during your confinement.

### TERMINAL ILLNESS RIDER

If the owner is diagnosed with a terminal illness, charges will be waived for a withdrawal of up to 75% of the Accumulation Value.<sup>8</sup> This rider has no extra cost.

### BENEFITS UPON DEATH OF OWNER

If the owner of the annuity dies, the full accumulation value is paid to the beneficiary, without surrender charges or MVA.<sup>5</sup>

### FREE-LOOK PERIOD

After your **MARKETPOWER BONUS INDEX** contract is issued, you have a specified number of days to review it; see your contract for complete details. If you are not completely satisfied with the terms, you may return the contract and receive 100 percent of your premiums paid, minus any prior withdrawals.
