ANNUITIES

Annuities can serve as an important part of your retirement and investment plan. We design our annuities to help your assets grow and provide a steady stream of income when you decide to retire. Generally, when you purchase an annuity, your funds accumulate tax-deferred until you withdraw earnings and can later be turned into a series of payments provided by our insurance company for a determined period of time. You may receive these funds over a number of years or for life, beginning right away, or in the future. We offer fixed indexed deferred annuities (FIAs), fixed deferred annuities and immediate annuities.

What retirement planning needs can an annuity help meet?

- Build your retirement nest egg
- Diversify your retirement assets
- Increase predictable earnings on savings
- Guarantee a lifetime income stream
- Gain flexibility to fund unexpected events, like terminal illness or nursing home care

PARTNERED WITH PROFESSIONALS

We have worked hard over many years with our distribution partners to build product solutions that help meet pressing consumer needs. We believe these trained, licensed, and experienced professionals have a deep understanding of the safety, accumulation, protection and income needs of the U.S. market. Consistency, dedication and commitment to a common goal have served many generations of clients well.

A romantic couple is shown from behind, embracing on a grassy hill. The man is wearing a grey t-shirt and jeans, and the woman is wearing a plaid shirt and shorts. They are looking out over a large body of water, likely a lake or reservoir, under a soft, golden sunset sky. The foreground is filled with tall, dry grasses.

LEAVING A LEGACY

Life insurance is one of the most selfless products you may ever purchase. It creates opportunities to fund the start of a business or pay for school so surviving members can train for a new career. It offers flexibility for a surviving spouse to take time off from work or switch to a more flexible work schedule. It helps replace lost income for years to come so surviving family members can pay for life's necessities. It provides a fresh start by helping pay off outstanding debts. It buys time for loved ones to grieve and not worry about funeral expenses. It gives parents a chance to leave future generations with the legacy of long-term financial security.

LIFE INSURANCE

A life insurance policy is essentially funds you save for your family in the event of your death. You make a contract with an insurance company, which guarantees to provide a certain amount of money to your family upon your death. In addition, life insurance can be used as a means of saving.

What protection needs does life insurance help meet?

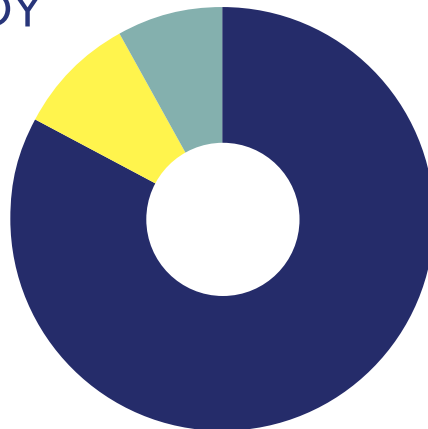

- Protect the lifestyle of your children, spouse or dependents in the event of untimely death
- Gain flexibility to fund unexpected events, like critical illness or terminal illness
- Transfer assets to your heirs
- Accumulate funds for education or retirement

HIGH QUALITY, ALL-WEATHER INVESTMENTS

We manage over \$20 billion in assets which allows us to help navigate all types of financial storms and provide peace of mind for our policyholders. Our investment portfolio is constructed to generate attractive risk-adjusted returns to help protect and enhance policyholder capital benefits. Over 93% of our fixed maturity portfolio is rated investment-grade.
